Mobile HotSpot Policy

In an effort to increase digital access for area residents, mobile hotspots are available to borrow from the Glenns Ferry Public Library.

Hotspot Borrowing Guidelines:

- The hotspots allow up to 10 devices to connect at a time with unlimited data. Hotspots are portable and work within the Verizon network [area](#).
- Hotspots are available to any Glenns Ferry Public Library account holder, 18 years or older, with an account in good standing (i.e. library record is not blocked due to unpaid fees or lost materials in excess of \$10).

Hotspot Devices:

- Are limited to one device per household due to demand.
- May be reserved.
- May be checked out for 14 days.
- May not be renewed.
- Accrue fines at \$1.00 per day.
- Hotspots must be returned to the Glenns Ferry Public Library checkout desk during regular business hours.
- Hotspots may not be returned in Glenns Ferry Public Library's book-drop.
- Failure to return the device to the checkout desk will result in denial of future electronic device borrowing privileges.
- If not returned when due, the WiFi hotspot will be turned off remotely if it is not returned on the due date, and Internet access will not be available.
- If the hotspot is lost or damaged, please contact the library immediately.
- The replacement fee is the market value cost to replace the hotspot.
- Patron is responsible for all damage/replacement cost that may occur while in patrons possession.

Library Responsibility:

- The Glenns Ferry Public Library is not responsible for any damage done to your personal equipment.
- The Glenns Ferry Public Library is not responsible for any loss of personal data.

Amendment of Rules:

- The Library Director may approve exceptions to this policy.

The Glenns Ferry Public Library Board of Trustees reserves the right to review and amend this policy at any time.
